March 11, 1991

Dear Harold and Lil,

First, I am happy to know that Lil is feeling better. I wish the both of you can find a way of vacationing in Florida using my condo when I leave at the end of March. I am serious! The sunshine and the warm swimming pool will revive the tired blood and the rusty joints! Take me up on it and I will arrange with the concierge to let you in.

Har, your correspondence is getting more interesting. How you find the time, let alone the energy, to do so much. I don't agree with Wrone's quote: --- "His spirit is willing but his body is not cooperative." Even half your age and twice your strength can't do 1/10 the work! Yours is not just work; it takes cerebral capacity and enthusiasm to do what you are doing. Still you find time to correspond and give advice. Are you sure you're not burning the candle at both ends and in the middle too?

Your book on the King assassination

may prove to be a bomb shell, a SCUD-NIK! I believe 99.999% of the public are led to believe that James Earl Ray killed Rev Martin Luther King. For you to say (let alone prove) otherwise will create quite a scandal. The FBI won't going to like you. (Just a thought. Be careful they don't get wind of your pending book and sabotage it.) I suggest you keep it a secret until publication. CAVEAT!!!

With the war over so quickly, the war profiteers are not happy. "The merchants of death" are disappointed in the money lost by the short war. But they'll find a way in making up the loss.

Now for the Peace "linkage". Look how quickly the "non linkage" got linked. Israel is in for a painful arm twisting to give up "land for peace". As you have often written, there can be no peace unless and until all the Arab states first sign a peace treaty with Israel. Will they?

I am leaving Florida for Wilmington after Passover. Afterwards back to Israel (MAY 4). I hope to see you before I leave. Until then HAPPY PASSOVER. TIME MARCHES ON! Love

Joe
